Ponoka Rest Room

A meeting was held in the Rest
Room on Saturday, October 21.
There was a fair attendance, and
the meeting was called to order
by the President, Mrs. J. E. Keefe.
Many matters of importance
were discussed, the most important
being the way of raising money
to carry on the Rest Room.

It was moved by Mrs. Martin
and seconded by Mrs. Story that a
"Membership Drive" be put on in
each school district. This motion
was carried. Mrs. Parks, seconded
by Mrs. Fuller, moved that the
President of the C.F.W.A.,
Women's Institute or Ladies' Aid
be appointed to look after the con-
ducting, and where one of these
organizations existed, the member
be asked to do this work, help
to be appointed by the leaders
required. Motion carried.

A resolution was passed asking
that special attention be paid to
this "Membership Drive," as
money must be raised at once
for the Rest Room, still have to be
done.

Red Cross

Every person who becomes a
member of the Red Cross is
continues to be a member of the
Alberta Division of the Canadian
Red Cross when the call comes
for the membership and finance
campaign, to be held from Oct.
1 to 11, will be doing his or her
part to help it carry on with
greater effort and vigor its work for
the improvement of health, the
prevention of disease and mitigation
of suffering. This is the power
programme of the society, and it has
emerged from the pioneer work
in this connection with an available
source. The development of the
work, as it should be, is now being
completed by lack of funds.

This is the reason that the organiza-
tion is appealing for public support
during the campaign next week.
Every person in Alberta who is
financially able to should at least
become a member of the society,
those who feel that they ought to
do more will have an opportunity
to make a donation over and above
the regular membership fee during
the week of the drive.

Any person who is familiar with
the work that the society is doing
in Alberta has nothing but the
highest of commendation to offer,
and every one of these citizens
arriving the organization all
the help possible. It has done a won-
derful work in case of sick and crippled
children through the Junior
Red Cross, in organizing nursing
and medical service in pioneer dis-
tricts, in promoting social service
in cities, in organizing disaster
and emergency preparations; and
in many other ways that might be
mentioned.

Recall a member and help this
good work.

Church union in Canada is a
live issue at present. The propo-
sals in the bill just approved by the
advocates of union show such a
complete disregard of the rights
and interests of those opposed to
union and contemplate such an
outrage on common justice that
the spirit of Presbyterians is
being roused all over Canada. Many

HOG GRADING COMMENCES OCTOBER 30

The regulations under which the
official grading of hogs will be
undertaken have been approved by
Council as submitted after final
agreement by all interests repre-
sented by the joint Swine Com-
mittee. The same orders ap-
pointed through the Civil Service
Commission following the grading
examinations have been reported for
duty to the Dominion Live Stock
Branch.

Thos. W. R. Mothershead,
Dominion Minister of Agriculture,
announces that the hog grading
regulations will be made effective
on October 30th, 1922. In the
meantime, the new hog grading
staff is being given a thorough
course of instruction at the Toronto
stockyards, so that the official
grading regulations as established
will be uniformly applied at all
stockyards and abattoirs in Canada.

Standard grading equipment is
being adapted, and is already
installed at several stockyards
where preliminary grading tests
are being conducted and the nec-
essary adjustments to expedite the
grading and movement of hogs be-
ing made. Experimental work in
tagging for cooperative ship-
ments providing for the classifica-
tion of individual farmer's hogs is
in its final stage and the Live Stock
Commissioner will announce an
approved classification mark sim-
ultaneously with the inauguration of
grading.

Glen Falloch & Vicinity

Our weather is fine for this time
of year, and the farmers are busy
plowing.

Mr. Nelson has been on the sick
list.
It seems township 15 has voted
to the herd lot, and consequently
a number of horses that have been
bottling around Mr. Benjamin's
place for some time were run in
the pound. Any one having horses
on this range should look them up.

Glen Falloch school has opened
again with Miss Reid as teacher.

Mr. Reichen and son, Raymond,
was in this vicinity last Wednes-
day.

Mr. Nellie Smith, of Flint,
Michigan, is here visiting her bro-
thers, Milton, Lyman and Chas.
Chapin.

Mr. Schmidt's little boy, in the
Baldinger neighborhood had the
misfortune to get his leg broken
recently.

Mr. Brodbeck has been suffering
with rheumatism of late.

Jake Tubber lost a big draft mare
recently. Mr. Tubber had just pur-
chased the mare intending to go
into the horses.

Mrs. Nellie Smith and Mrs. C. S.
Chapin spent a pleasant afternoon
with Mrs. E. D. Allen last Wed-
nesday.

A Bright Outlook

National pride and confidence in Canada should be cultivated by every Canadian citizen, whether native-born or Canadian by adoption. There is every reason why Canadians should be proud of and have confidence in their country, and there should be no doubt that during the period which has elapsed since the war, and as this passes they are becoming clearer and stronger.

Five centuries, it is said, ago, as possibly navigated the first two or three years after the American Revolution. Canada had its financial troubles, its industrial depression, its strikes, but these were in every respect less severe than in other countries. In fact, for several years of repeated crop failures over considerable areas of the prairie provinces, which intensified the financial position and because of reduced buying power, it is doubtful if Canada's industrial depression and labor unrest would have been very noticeable. The financial, however, passed through the fire, and now, with full crops of the year, our manufacturing, which with some, when compared with other countries.

Confidence in Canada is now steadily improving, and our position both nationally and internationally is steadily rising. The growing confidence of Canadians in their own Dominion was shown in connection with the recent Canadian Loan in the Federal Government when there was no more than a passing mention of the offer to exchange the same for a new loan on generally that practically the full amount was thus provided for and the Minister of Finance will not be obliged to rely upon public credit. Canadians have demonstrated that, but only were they willing to purchase their country's securities with their own money, but they are just as willing to buy such securities in the past.

Of all national confidence, there was a heavy blow to the United States during and immediately following the war, the Canadian dollar was the first to recover and take back to par.

The trade of Canada is steadily expanding, and doing so in the most healthy fashion. That is to say, the marked increase in the total trade of Dominion being noted from time to time, which is almost entirely an increase in export trade. Exports are increasing steadily or slightly decreasing, which shows that the Dominion is becoming more and more self-sufficient and able to stand on its own feet. More and more Canada is becoming an exporting and growing power from other lands, while at the same time we are enabled to send less money out of the country to meet international obligations.

A wonderful increase in the movement will undoubtedly result from this year's bumper crop in the West. It is now said, in the history of the prairie, and even greater in volume than the record breaking crop of 1915.

The deficit in the operation of the National Railway is steadily decreasing, and while it may take some time yet to get that great system back to position where it will be able to pay all its fixed charges, the day is approaching when it will more than earn its operating expenses and leave a small surplus in its capital charges. There is a growing feeling of optimism regarding the road's future.

Building operations throughout the Dominion this year have reached a total only comparable with some of the best years, and in all lines of industrial activity there is a marked increase in business and a consequent lessening of unemployment. In fact, the report from some of the Western labor bureaus is now to the effect that there are more jobs offered than there are applicants for them.

Health legislation is proceeding apace and a stronger, healthier Dominion is steadily developing. There is nothing in the nature of a house in evidence, and certainly no one having the best interests of the Dominion at heart declines to see anything of that nature develop. There is, however, a sane, substantial feeling of optimism, and all indications point to a continuation of this throughout the coming year.

Aspects from the past, the possibilities, the older value of the 1922 wheat crop is in the position of being the best of the year, and in all lines of production, and certainly no one having the best interests of the Dominion at heart declines to see anything of that nature develop. There is, however, a sane, substantial feeling of optimism, and all indications point to a continuation of this throughout the coming year.

John Bull and Uncle Sam

Small Portraits of the World Learning to Look to Britain for Justice

The United States has not passed, through a newspaper interview given out by Secretary Hughes, its sympathy with Britain, and that the United States will be peopled with one to the shipping of the world.

Yet the United States, as one of the great powers, has done nothing apparent to cause its views in this matter to prevail. Like France and Italy, the United States knows that Britain will not again allow the Turk to be a British ally. It is rather curious that the United States has not done anything to the United States to force Britain to export him to keep things straight.

The United States is great work well done. But all the small oppressed people are made to know that it is a charity only and not justice which Uncle Sam has to dispense.

The small despots of the world are leaving that if it is charity they want they should appeal to the United States. It is in justice they want they must see if John Bull can do anything for them—Thomas Shaw.

Preparing For Final Conquest Of Everest

Weather Is Reckoned Most Favorable In Early Winter

The advance guard of the party that is to go to the top of Mount Everest, the highest mountain in the world, is now on its way from London to New Delhi, India, to the tip of Himalayas.

It will make a long trip, and from that on, all the mountain climbing, and great expeditions, will set out. Last year the expedition got up to a height of 28,000 feet, and then they had to turn back, and now they are going to try to reach the summit.

This time the effort to reach the summit will be more determined, and more likely to succeed, because a good deal was learned in the course of last year's ascent, and also because the weather is reckoned to be most favorable in early winter.

DIARRHOEA IS DANGEROUS

To Teething Babies DURING HOT WEATHER

Hot weather is dangerous for the babies when during their teeth, and all mothers should watch very closely for it. Diarrhoea is a very common complaint in infants, and it is often caused by the heat of the weather.

Dr. Barnardo's Homes

26,800 Boys and Girls Have Been Sent to Canada

The fifty-third annual report of Dr. Barnardo's Homes records important additions to the "machinery of rescue" during 1922. The homes include the William Baker Technical School, Goldens, near Hertford, a new convalescent home for boys, a convalescent home for girls, a new home at Toronto for immigration at the boys' garden city at Woodville Bridge.

The collection of year is described as having been of unusual interest. "Canada has received 508 of our boys and girls, bringing up the total of those whom we have sent to the Dominion to 26,800. But Australia has received 10,000, and the United States has received 10,000. An industrial committee has been formed in Sydney. A new home has been purchased and recently sent to the Barnardo institutions as an immigration centre, and our first official party sailed for Sydney in August. It was a small party of only forty-seven boys, but they were boys of the first class. It is plain that in Australia the future of organized emigration as one of our boys is assured from a healthy point of view. Forty or fifty boys will doubtless follow in the wake of the first. From 1910 to the end of 1921, 522 boys and girls entered the homes."

From 1910 to the end of 1921, 522 boys and girls entered the homes."

The collection of year is described as having been of unusual interest. "Canada has received 508 of our boys and girls, bringing up the total of those whom we have sent to the Dominion to 26,800. But Australia has received 10,000, and the United States has received 10,000. An industrial committee has been formed in Sydney. A new home has been purchased and recently sent to the Barnardo institutions as an immigration centre, and our first official party sailed for Sydney in August. It was a small party of only forty-seven boys, but they were boys of the first class. It is plain that in Australia the future of organized emigration as one of our boys is assured from a healthy point of view. Forty or fifty boys will doubtless follow in the wake of the first. From 1910 to the end of 1921, 522 boys and girls entered the homes."

Thanksgiving Day

NOVEMBER 6th, 1922

It was in the fall of the year following the landing—1921—that the first feast took part, when the Virgin Fathers and their families, with Indians as invited guests gathered to give thanks to the Divine Providence for what in those days were blessings indeed.

And so we have made it a custom to celebrate Thanksgiving Day once a year by supposition of Prayer, dining and giving in dining. The Day of Days in which to practice generosity (which the Dictionary says is "The Art of Good Deeds").

Thanksgiving is a good time to add a carving set to match your Plateware. Then, too, the old folks would be delighted to receive a New Set for the Thanksgiving Table as a gift from the visiting children, and vice versa.

I carry Sterling, Plate, Celluloid and Bone Handle Sets.

Two of our citizens were up to see Magistrate Turner the first of the week, and fined for operating their cars without a license.

A few people apparently are trapping muskrats in spots of the glacial season, which forbids trapping of muskrats south of the North Saskatchewan. Better lift your traps and avoid trouble.

Several class rooms in the school were closed for a couple of days last week, the teachers being at attending a convention in Edmonton. A. M. Matheson, M.P.P., of Chipman, was a guest of Mr. and Mrs. J. C. Bell over the weekend. Mr. Matheson also visited his property at Springdale. He has just returned from a visit to the coast cities, where he went on account of his health.

Not that we are trying to hasten on the winter, but just not about time that a meeting of the Curling Club was held? Notwithstanding the dry season, that wise old timer predicts a few weeks sufficient frost to give a game or two of curling before ice and the month of April.

On the occasion of leaving the Provincial Mental Hospital to take over the control of the engineering plant at the Home for Mental Defectives Children at Oliver, Alberta, Mr. Fred Adams, who has been an engineer at the Hospital power plant for a number of years, was made the recipient of a human heart pin and a pair of golf-club links as a farewell gift from his fellow workers in the power plant.

This should prove of interest to some of our road councillors, and some of them might take action. Complaint has been made as to the condition of the road east, and it might be well to take note—"Rocky Mountain House, Alta.—A. Sinclair, mail carrier, has estimated that it is well against one of the municipal districts south for \$25. Mr. Sinclair claimed that his Ford truck was broken on the rough highways. It is an unusual case in a country much attention. A similar case was successfully tried in the Berwyn municipality near by some time ago.
